1. Glossary of Terms and Abbreviations

1.1. Terms

Term	Description
Credit Report Document	The downloadable credit report PDF file.

1.1. Abbreviations

Abbreviation	Description
BNPL	Buy Now Pay Later

Classification: [Restricted](#)

2. Introduction

2.1. Project Overview

The digital credit report module in MOLIM 2.0 is intended to increase the accessibility for the user and to access the contents and information from the MOLIM credit report in an easier way. The user can navigate to the digital credit report page and browse the sections without downloading an actual credit report PDF document.

2.2. Business Drivers

- Enhanced user experience for viewing the contents of the credit report.
- Need for fast access to credit instrument status & details.

3. Scope of Work

3.1. Scope Overview

Requested Service Already Exists?					
☐ Yes, as is	☐ Yes, need enhancement	☐ Yes, but not in the portal	☒ No, it is a new service		
Affected MOLIM Services					
☐ Alert	☐ Appointment	☐ Credit Report	☐ Dispute		
☐ Enquiry	☐ Finance	☐ User Management	☐ Narrative		
☐ Packages	☐ Salary Certificate	☐ Others			
Affected System Integration					
☐ ITSM	☐ CRM	☐ Core System	☐ Molim Website	☒ Molim Application	☐ Simat

3.2. In Scope

Credit report and all its sections are to be shown and represented on MOLIM 2.0 digital credit report UI. This module is part of the phase-2 implementation of the MOLIM 2.0 application.

3.3. Out of Scope

Other details outside of the credit report will not be included in the digital credit report and are considered out of scope for this service.

4. System User Roles

User Role	Role Description
MOLIM	
SMART User	Any user who is either subscribed to SMART Monthly or SMART Annually.
Inactive User	Users who don't have an active subscription.

Classification: [Restricted](#)

5. Business Process

5.1. Current Process

Currently the credit report and its contents are viewed through the PDF downloadable report, and the user generates & downloads each report as per the need.

5.2. Proposed Process

The digital credit report will allow the SMART user to see the sections of the report through the web / mobile interface with the details of the actual credit report document and the users have the capability to search. The contents of the digital report match the contents of the digital credit report.

The core system response shall be different version with the action code SPP (Soft Pull Plus) without score. The score engine is the V5 score engine. The SPP action response from the core system will have additional payment cycle information in tags – Cycles. (CI_CYCLES). Each cycle has the following information

Tag	Name
CI_CYCLE_DATE	Cycle Date
CI_LSPD	Last Payment
CI_LSTAM	Last Amount Paid
CI_ACS	Payment Status
CI_OUTB	Outstanding Balance
CI_PDB	Past Due Balance
CI_ASOF	As Of Date
CI_NXPD	Next Payment Date
CI_LODAT	Date Loaded

6. Assumptions, Constraints, and Dependencies

6.1. Assumptions

The Digital Credit Report reflects entirely on the pdf credit report for all the contents, terminologies and values given in each of the sections.

6.2. Dependencies

The digital credit report is dependance on the credit report source and its contents.

7. Business Requirements

7.1. Functional Requirements

No.	System Features	Description
F01.	Digital Credit Report	The options the user have to browse and view through the sections

Classification: [Restricted](#)

		of the credit report on the UI.
F02.	Download Credit Report	The option for the user to download the actual credit report.

7.2. User Stories

Feature	ID	User Story	Acceptance Criteria																																		
Digital Credit Report	US01	As a SMART user, I want to view my Digital Credit Report, so that I can see all report sections in one place.	1. Page header shows “Credit Report” with subtitle/help text. 2. Search bar and secondary input render above sections. 3. “Expand All” and “Collapse All” controls are visible. 4. Sections list renders in the default collapsed state. 5. Each section row shows a title and an expand chevron. 6. Clicking on the expand chevron will expand that particular section. 7. The report sections are given below. <table><thead><tr><th>SECTIONS</th><th>ORDER</th></tr></thead><tbody><tr><td>Personal Information</td><td>1</td></tr><tr><td>Credit Report Summary</td><td>2</td></tr><tr><td>Credit Score</td><td>3</td></tr><tr><td>Active Products Summary</td><td>4</td></tr><tr><td>Active Guaranteed Products</td><td>5</td></tr><tr><td>Buy Now Pay Later Products Summary</td><td>6</td></tr><tr><td>Defaulted Products Summary</td><td rowspan="3">7</td></tr><tr><td>→ Active Defaulted Products</td></tr><tr><td>→ Settled Defaulted Products</td></tr><tr><td>Guaranteed Defaulted Products Summary</td><td rowspan="3">8</td></tr><tr><td>→ Active Guaranteed Defaulted Products</td></tr><tr><td>→ Settled Guaranteed Defaulted Products</td></tr><tr><td>Bounced Cheques</td><td>9</td></tr><tr><td>Product Details</td><td>10</td></tr><tr><td>Previous Enquiries</td><td>11</td></tr><tr><td>Enforcement Courts Decisions</td><td>12</td></tr><tr><td>Narratives</td><td rowspan="3">13</td></tr><tr><td>→ Member Narratives</td></tr><tr><td>→ Personal Narratives</td></tr></tbody></table>	SECTIONS	ORDER	Personal Information	1	Credit Report Summary	2	Credit Score	3	Active Products Summary	4	Active Guaranteed Products	5	Buy Now Pay Later Products Summary	6	Defaulted Products Summary	7	→ Active Defaulted Products	→ Settled Defaulted Products	Guaranteed Defaulted Products Summary	8	→ Active Guaranteed Defaulted Products	→ Settled Guaranteed Defaulted Products	Bounced Cheques	9	Product Details	10	Previous Enquiries	11	Enforcement Courts Decisions	12	Narratives	13	→ Member Narratives	→ Personal Narratives

	US02	As a SMART user, I want to search for a specific text from the search bar, So that I can quickly see the required section of the report.	1. Typing in the search input shows inline text. 2. Pressing Enter or clicking “Search” filters visible sections/cards. 3. No-result state shows a friendly empty message. 4. Clearing the query restores the original list. 5. Searching is keyword matching for all contents in the credit report. If there is a least match for the search query for a section, then that section is visible, other sections are hidden. 6. The section shows only the item list matching the keyword.																																		

Classification: [Restricted](#)

	US03 As a SMART user, I want to expand or collapse all sections at once, So that I can scan or focus faster.	1. Clicking “Expand All” opens every section. 2. Clicking “Collapse All” closes every section. 3. Control labels toggle correctly based on the current state. 4. Expanded state persists while navigating within the page.										
	US04 As a SMART user, I want to open a specific section, So that I can view its detailed content only when needed.	1. Clicking a section row expands its panel 2. Expanded panel reveals section-specific content and tables 3. Chevron/icon rotates to indicate open state 4. Only the clicked section changes state (unless “Expand All” is used)										
	US05 As a SMART user, I want to see my personal information as section, So that I can easily see all personal information in one section.	1. Section named “Personal Information” 2. Below details are shown in the section <table><tr><th>Field</th><th>Source</th></tr><tr><td>Customer Name</td><td rowspan="7">PROFILE</td></tr><tr><td>ID Number</td></tr><tr><td>Date of Birth</td></tr><tr><td>Nationality</td></tr><tr><td>Gender</td></tr><tr><td>Phone Number</td></tr><tr><td>Update Date</td></tr></table> Please refer to the FIGMA design	Field	Source	Customer Name	PROFILE	ID Number	Date of Birth	Nationality	Gender	Phone Number	Update Date

Total Outstanding Balances												
Total Guaranteed Limits												
Total Guaranteed Balances												
Number of Defaulted Products												
Total Outstanding Defaulted Balance												
	US07 As a SMART user,	1. Section named “Credit Score”.										

Classification: [Restricted](#)

		I want to view my current score & factors as a section, So that I can track my score status.	- Gauge shows current score and date updated. - Score shows the score category below the score. - Section shows score contributing factors on the right side. (In mobile the factors are shown below) as per the FIGMA link. - Score and the contributing factors contents match the credit report details.
	US08	As a SMART user, I want to see a table of my active products as a section, So that I can review balances and statuses.	- Section named "Active Products Summary" - Table lists - Product Type - Creditor - Account Number (partially masked in mobile app with only last 4 characters shown. Eg: ***1234). - Installment Amount - Credit Limit - Outstanding Balance - As Of Date (DD/MM/YYYY). - Payment Status - Status pills reflect Current/Overdue/Default/Closed states same as in credit report document. - Empty state appears when no active products exist and headers are visible when empty. Please refer to the FIGMA design
	US09	As a SMART user, I want to see a table of my active guaranteed products as a section, So that I can review balances and statuses.	- Section named "Active Guaranteed Products". - Table lists. - Product Type - Creditor - Account Number (partially masked in mobile app with only last 4 characters shown. Eg: ***1234). - Issue Date (DD/MM/YYYY). - Credit Limit - Outstanding Balance - Payment Status - Expiry Date (DD/MM/YYYY). - Status pills reflect Current/Overdue/Default/Closed states same as in credit report document. - Empty state appears when no active products exist and headers are visible when empty. Please refer to the FIGMA design
	US10	As a SMART user, I want to see my BNPL accounts summarized as	- Section named "Buy Now Pay Later Products". - Empty state appears per group when data is missing - Buy now pay later have the below fields. - Account Number (partially masked in mobile app with only last 4 characters shown. Eg: ***1234).

Classification: [Restricted](#)

		a section, so that I can track usage beyond loans.	- Product Status - Issue Date (DD/MM/YYYY). - Credit Limit - Expiry Date (DD/MM/YYYY). - Number of Installments - Outstanding Balance - Past Due Balance - Installment Amount - As Of Date (DD/MM/YYYY). 4. The sub section payment summary shows the payment history calendar as detailed in US14. 5. If there are more than 2 products, then the pagination panel is shown. (per page 2 products) Please refer to the FIGMA design
	US11	As a SMART user, I want to see my Default Products Summary section, So that I can know which are active and settled products.	1. Section name “Default Products Summary”. 2. Two sub sections – active and settled 3. List of fields - Product Type - Creditor - Account Number (partially masked in mobile app with only last 4 characters shown. Eg: ***1234). - Reported Date (DD/MM/YYYY). - Default Amount - Default Outstanding - Default Status 4. Settled section will have additional column – Settlement Date (DD/MM/YYYY). Please refer to the FIGMA design
	US12	As a SMART user, I want to see my Guaranteed Default Products Summary as a section, So that I can know which are my active and settled guaranteed products.	1. Section named “Guaranteed Default Products Summary” 2. Two sections -active and settled 3. List of fields - Product Type - Creditor - Account Number (partially masked in mobile app with only last 4 characters shown. Eg: ***1234). - Reported Date (DD/MM/YYYY). - Default Amount - Default Outstanding - Default Status 4. Settled section will have additional column – Settlement Date. Please refer to the FIGMA design

Classification: [Restricted](#)

	US13 As a SMART user, I want to see my Bounced Cheques list in the digital credit report as a section, So that I can know the status of each.	1. Bounced Cheque 2. Details - Reported Bank - Cheque Number - Reported Date (DD/MM/YYYY). - Cheque Amount - Outstanding Balance - Cheque Status - Settlement Date (DD/MM/YYYY). Please refer to the FIGMA design																																																				
	US14 As a SMART user, I want to view detailed product cards inside the report as a section, so that I can review account info in context.	1. The section named “Product Details” shall have the fields arranged in tabs. 2. Tabs – Account information, Payments & Contract Information shall be shown default. 3. Tabs like Installment Details & Co-Borrower shall be shown only if there is data. <table><tr><th>TAB</th><th>FIELDS</th><th>XML TAG</th></tr><tr><td rowspan="8">Account Information</td><td>Account Number</td><td>CI_ACC_NO</td></tr><tr><td>Issue Date</td><td>CI_ISSU_DT</td></tr><tr><td>Credit Limit</td><td>CI_LIMIT</td></tr><tr><td>Number Of Installments</td><td>CI_TNR</td></tr><tr><td>Installment Amount</td><td>CI_INSAMT</td></tr><tr><td>Payment Frequency</td><td>CI_FRQ</td></tr><tr><td>Expiry Date</td><td>CI_PROD_EXP_DT</td></tr><tr><td>Type Of Guarantee</td><td>CI_SEC</td></tr><tr><td rowspan="7">Payments</td><td>Outstanding Balance</td><td>CI_CUB</td></tr><tr><td>Past Due Balance</td><td>CI_ODB</td></tr><tr><td>As Of Date</td><td>CI_AS_OF_DT</td></tr><tr><td>Last Amount Paid</td><td>CI_LAST_AMT_PD</td></tr><tr><td>Last Payment Date</td><td>CI_LAST_PAY_DT</td></tr><tr><td>Next Payment Date</td><td>CI_NXT_DU_DT</td></tr><tr><td>Close Date</td><td>CI_CLSD_DT</td></tr><tr><td rowspan="8">Contract Info</td><td>Salary Assignment</td><td>CI_SAL</td></tr><tr><td>Balloon Payment</td><td>CI_BPAYMENT</td></tr><tr><td>Down Payment</td><td>CI_DPAYMENT</td></tr><tr><td>Dispensed Amount</td><td>CI_DAMOUNT</td></tr><tr><td>Max Installment Amount</td><td>CI_MIAMOUNT</td></tr><tr><td>Contract Type</td><td>CI_SUBPROD</td></tr><tr><td>Product Status</td><td>CI_STATUS</td></tr><tr><td>Average Installment Amount</td><td>CI_AVG_INSTL</td></tr></table> 4. Tab named "Installment Details (In Case of Installment Change)" with fields below. - Instalment Start Date (DD/MM/YYYY). - Installment Amount 6. Co-Borrower details - Number Of Applicants - Installment Amount - Last Amount Paid - Last Payment Date (DD/MM/YYYY). - Outstanding Balance - Percentage Allocation - Applicant Limit - Payment Status - Past Due Amount - Next Payment Date (DD/MM/YYYY). 7. If there are more than 2 products, then the pagination panel is shown. (per page 2 products). Please refer to section data here Please refer to the FIGMA design
US15	As a SMART user, I want to see a 24-month payment calendar for a product, so that I can verify payment performance.	1. Calendar shows months for the last 24 months grouped by year. 2. In mobile app, current year is shown in default and can slide to previous year. 3. Dots or icons indicate Paid/Missed/N/A by color. 4. Paid, Missed, N/A total counters show below the calendar. 5. Hovering on each month will show the details in a tooltip. On mobile app, it is clickable and the payment details are shown in the tooltip. 6. The payment calendar is shown for each product for below sections. a. Buy Now Pay Later Products

Classification: [Restricted](#)

b. Product Details

7. The Paid / Missed / N/A status is based on the below table and is considered from the <CI_CYCLES> tag (Refer to SPP action of the CORE system).

Chip Status	Condition
Paid	CI where <CI_CYCLE_DATE> = chip year/month AND <CI_ACS> IN (0, F, N, Q, C, D, V)
Missed	CI where the year and month in <CI_CYCLE_DATE> = chip year and month AND <CI_ACS> in (1, 2, 3, 4, 5, 6, W, R)
N/A	CI where item has no cycle detail in during the chip year and month and it's respective slot in <CI_SUMMARY> = 'M' AND no other CI exists with <CI_ACS> in (1, 2, 3, 4, 5, 6, W, R) for the same month

Please refer to the [FIGMA design](#)

US16
As a SMART user,
I want to see previous inquiries,
so that I can monitor who accessed my report.

1. Table lists lender, purpose, date, and outcome/status
2. Rows are ordered most recent first
3. Empty state appears when no enquiries exist

US17
As a SMART user,
I want to view court decisions and narratives
so that I can understand the context affecting my report.

1. The Enforcement Court Decisions table renders with dates and statuses
2. Narrative list shows type, description, and recorded date.
3. Empty states appear when sections have no data.
4. Data elements for Enforcement judgments will be the same as in the credit report.

US18
As a SMART user,

1. Section named "Narratives" with 2 sub sections.

Classification: [Restricted](#)

		I want to view the narratives as a section, So that I can know what the narratives are listed.	- Member Narratives. - Personal Narratives. 2. Narratives section shall show the narratives with the design in web and mobile and the data elements same as from the credit report.
	US19	As a SMART user, I want my expand/collapse states to persist while I scroll and search, so that I don't lose context.	1. Expanded sections remain open after search filter changes. 2. Scroll position is preserved when toggling a single section 3. Refresh resets to the default collapsed state (non-persistent across sessions)
	US20	As a SMART user, I want clear feedback while data loads, so that I know the report is working.	1. Skeleton or spinner shows while sections fetch data. 2. Errors show a retry control with a concise message 3. Partial content loads progressively without blocking other sections.
	US21	As an inactive user, When I navigate to the digital credit report, I can see a subscribe to message, So that I can purchase a subscription and use the service.	1. Inactive users cannot see the sections but a CTA to subscribe. 2. The page shows clear message and the CTA button. Unlock Credit Report View your credit report with full details. This feature is available with an active subscription. فتح تقرير الائتمان عرض تقريرك الائتماني الخاص بك مع التفاصيل الكاملة. هذه الميزة متاحة مع اشتراكك نشط. - The upgrade plan button takes the user to packages
	US22	As an active user, I want to see tooltip content about some sections,	- The active user navigates the digital credit report. - The user can click on the ? icon to see more information as tooltip about the section - Refer here for the info content. Tooltip

Classification: [Restricted](#)

		So that I can know more information about the credit report section.	
Download Credit Report	US23	As a SMART user, I want to download my credit report as a PDF file, So that I can store the file and view it.	1. A primary "Download Report" button is displayed on the Credit Report overview page. 2. Selecting the "Download Report" button opens a popup where the pdf is previewed with option to download the user's credit report as a PDF file. 3. On clicking the "Download" button from the preview window, the file is downloaded into the users download. History button navigates the user to the documents hub (Credit report tag). 4. On mobile app, the preview is shown in a separate screen with option to download and navigate to history (Documents hub)
	US24		

8. General Business Rules

No.	Rule	Ownership
BR.01	The digital credit report shall have the contents and terminologies exactly as the credit report document. The information and the line items should be exactly as in the credit report PDF generated.	
BR.02	The CORE System credit report action type dependent on is the SPP (Soft Pull Plus) action for MOLIM 2.0. which includes the Payment Cycles Information.
